REMARKS

ठिप्पनी

The figures on births and deaths for the week-ending 29th February 1964 shown in this Statement relate to 316 towns in the States of Andhra Pradesh, Assam, Bihar, Delhi, Goa, Gujarat, Kerala, Madhya Pradesh, Madras, Maharashtra, Mysore, Orissa, Punjab, Rajasthan, Uttar Pradesh and West Bengal. These towns account for a population of 41,003 thousand out of a total population of 55,468 thousand in the country in 437 towns, each having a population of 30,000 and over.

In 259 towns having a population of 36,020 thousand in Group I, where registration is comparatively more complete; 20,317 births and 7,442 deaths were recorded giving a birth rate of 29*3 and a death rate of 10-7 per thousand of population. The rates registered in the various States are as follows :

तारीख 29 फरवरी 1964 % yikllffj+ fa²K⁴f H 5NET ST⁸T, STSW, f⁸K, दिल्ली, गोआ, गुजरात, केरल, मध्य प्रदेश, बड़ास, महाराष्ट्र, भैसूर, उड़ीसा, पंजाब, राजस्थान, उत्तर प्रदेश और पश्चिम बंगाल प्रदेशों की नगर पालिकाओं के जन्म व मृत्यु के प्रांकड़े दिए हैं। भारत में 437 नगर ऐसे हैं जिनकी जनसंख्या तीस हजार या उससे अधिक है। इस विवरण में ऐसे 316 नगरों के प्रांकड़े दिए हैं जिनकी जनसंख्या 41,003 हजार है।

उन प्रदेशों के पंजीयन कार्य जो प्रथम वर्ग में दिए हैं दूसरे प्रदेशों की अपेक्षा अधिक । उनमें 20,317 जन्म और 7,442 मृत्यु हुईं। इनके jrhPf% अनुसार इन नगरों का 5RT दर 29*3, मृत्यु दर 10-7 प्रति हजार है। विभिन्न प्रदेशों के जन्म तथा मृत्यु दर इस प्रकार हैं :

State (प्रदेश)	Current w/e 29-2-1964		Corresponding w/e last year

West Bengal (qfe^M बंगाल)	.	13-4	6-3	72	ISO	10-5	119	

The table given below shows the annual vital rates for each of the years 1957—61 for all municipal towns, each with population 30,000 and over based on the final yearly data. The corresponding annual rates for 1961 and various periods in 1962 compiled from the weekly figures, which were published from time to time in this Supplement, are also shown to draw attention to their possible use in tracing current trends.

Appropriate adjustments in the population base were made in cases, where the data for any town could not be included. The rates for States not shown are much too deficient for being presented. Even the data for States, which are shown are deficient to a varying degree. Efforts have to be made to improve the completeness.

The two sets of rates for 1961—one based on the annual returns and the other on weekly returns—are presented to give an idea of the extent of variation between the final and the weekly figures. The two agree closely in the case of Gujarat, Punjab and Orissa only, otherwise for other States the difference is quite appreciable. However, the rates for all the eight States combined agree fairly well showing that, perhaps with emphasis on the improvement of the completeness of State figures, they may help in a study of current trends.
